Eliminate Your Toughest HR Challenges

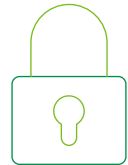

Streamline processes with trustworthy software

Free your IT department from maintaining and supporting multiple HR systems so they can focus on strategy and building the systems required to support your business's objectives.

Our cloud-based solution empowers your users with 24/7 access and real-time changes and reporting capabilities, all from one application that requires no integration. Paycom provides dedicated specialists to give your users expert help when they need it for any Paycom service or software-related inquiry, giving your team even more time back in the day.

TRUST PAYCOM TO SECURE YOUR CONFIDENTIAL EMPLOYEE AND COMPANY DATA

Paycom puts significant effort and expense toward our information security processes and infrastructure. ISO 9001- and ISO 27001-certified, Paycom is regularly tested on its quality management processes and security controls to mitigate information security risks.

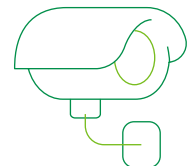

PROTECT YOUR CRITICAL PAYROLL AND HR ACCESS AND HISTORY IN THE FACE OF DISASTER

At Paycom, all critical systems and data are fully redundant and backed up in real time to a second facility that meets the same security and redundancy requirements of our primary location. Battery backups and regularly maintained generators ensure continued service even in the most severe power outages, so you can rest assured your data is always safe.

TIGHTEN THE SECURITY CONTROLS OF YOUR END USERS

Paycom employs industry-proven standards to protect customer data, including 256-bit encryption technology, multilevel user logins with customized access and audit trails that track all system changes.

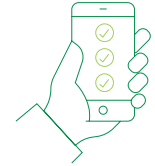

LOWER THE TOTAL COST OF OWNERSHIP FOR YOUR PAYROLL AND HR SYSTEMS

Consolidate your multiple payroll and HR systems into one completely scalable application for hiring, HR, time and attendance, talent management and payroll. One application costs less, frees IT resources and provides pay-as-you-grow pricing so you never pay for services you don't need.

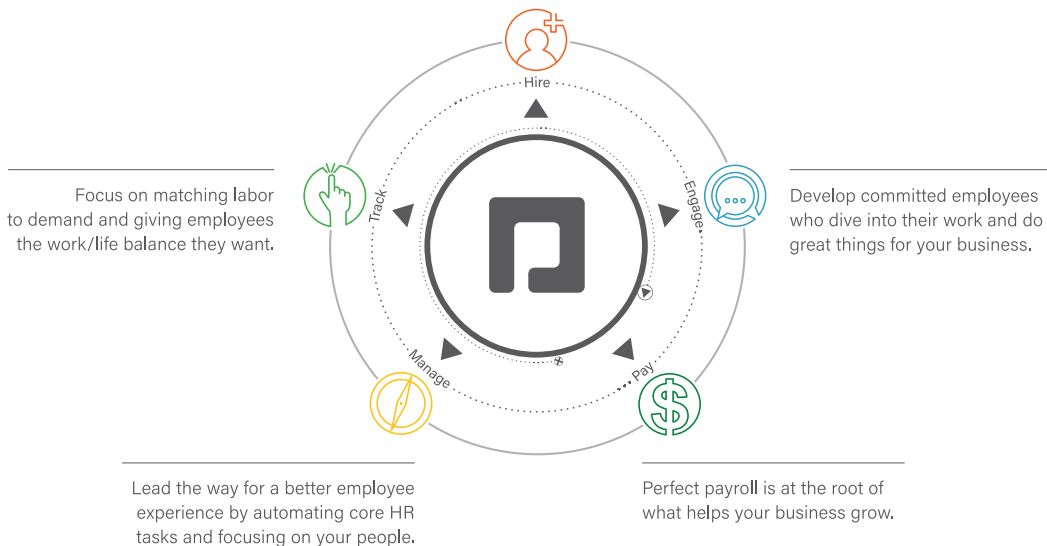

AUTOMATE PROCESSES TO IMPROVE EFFICIENCY

Paycom's technology eliminates manual data entry and redundancy with a single application for all payroll and HR functionality. We help automate processes that improve workflow efficiency and lower labor costs.

Knock out all of your toughest HR challenges
with one easy-to-use, cloud-based app.

Great people drive peak
business performance.
Find, attract and hire the best.
